## About me

- Franco-American Software Designer & Developer.
- Passionate about creating clean, elegant solutions to solve real business problems, through functional design and development.
- Life-long learner, I strive to always keep improving.

## Experience

### Founder, Developer, Designer - Mkt

New York, NY — 2017/2019

Founded, designed, developed and marketed luxury fashion shopping platform “Mkt” ([mktfashion.com](http://mktfashion.com)) from-scratch.

- Reached \$10,000 / month in affiliate commissions.
- Technologies used: NodeJS, Hapi.js (Framework), Sequelize, PostgreSQL, ElasticSearch, HTML5, CSS3.

### Software Development/Design Contractor - Various Clients

New York, NY — 2016/2018

Worked with various clients to design and develop custom web applications, landing pages and mobile app concepts.

- Prototyped, designed and developed mockups/mobile UIs.
- Wrote custom scripts to automate workflows and improve team productivity
- Effectively communicated, managed and worked with demanding clients.

### Founder/Designer/Developer - Skyler

New York, NY — 2015/2016

Skyler was a startup I co-founded. A mobile app for iOS and Android, it was dubbed “The Fashion Weather App”: a weather app that provided daily styling recommendations based on your live weather conditions.

- Single-handedly prototyped, designed and developed both iOS & Android apps with Meteor.js and Cordova.
- Broke top 10 weather apps in the US iOS App Store
- #2 Lifestyle app in Russia beating out the likes of Zara, H&M, Amazon...
- Featured in top women’s publications such as Refinery29, Brit+Co...
- 8000+ downloads in a month

## Education

### ENSAAMA (Ecole Nationale Supérieure des Arts Appliqués et des Métiers d’Art)

MANAA — 2013/2014

Attended a multi-disciplinary preparatory year in one of the top three Art Schools in Paris.
